Quality Improvement Plan (QIP) Narrative for Health Care Organizations in Ontario

Blind River District Health Centre
Pavillon Santé du District de Blind River

4/1/2015

This document is intended to provide health care organizations in Ontario with guidance as to how they can develop a Quality Improvement Plan. While much effort and care has gone into preparing this document, this document should not be relied on as legal advice and organizations should consult with their legal, governance and other relevant advisors as appropriate in preparing their quality improvement plans. Furthermore, organizations are free to design their own public quality improvement plans using alternative formats and contents, provided that they submit a version of their quality improvement plan to Health Quality Ontario (if required) in the format described herein.

Overview

The Eldcap beds are part of a 42 bed unit composed of
22 LTC beds
10 CCC beds
10 Eldcap beds.

The unit operates with one staffing pattern, common policies and processes.
RAI data is collected for each section of beds and reported separately to CIHI.

The organization has been tracking quality data for all 42 residents versus individual sections. This provides a larger sample size. All QI plans are based on 42 beds.

For that reason, the organization with the support of the Board of Trustees will not be preparing a separate QIP for the Eldcap beds.

All quality indicators for the 42 beds will be included in the LTC QIP
